

YPO-WPO WorldAware Safe Travel Solution

Operate Globally with Confidence

Awareness

YPO-WPO offers members a global safe travel assistance program. As a leader in travel assistance and integrated risk management, WorldAware (now owned and operated by iJET) offers YPO and WPO members and their families peace of mind when traveling. Members are provided with continuous access to Country Risk Information services through YPO-WPO's dedicated WorldAware portal. Upon enrollment, members are issued passcodes to access the WorldAware mobile application to allow quicker access to Country Risk Information. Members are also encouraged to contact the 24/7 WorldAware Operation Center to consult with crisis management professionals for pre-travel or during-travel advice.

Incident Management

WorldAware has partnered with the global medical assistance provider Europ Assistance to provide the travel emergency aspects of the YPO-WPO safe travel solution. In addition to Emergency Medical Assistance, WorldAware can support a broad range of travel related incidents including Personal Assistance Services (lost luggage assistance, translation services, cash advances and legal assistance).

Risk Management Travel

In an effort to provide a greater sense of security for members and their families who have registered their trips, WorldAware will monitor global events surrounding their travel locations to issue travel alerts that will focus on security, transportation, environmental and medical risk exposure. These alert messages would be issued throughout the duration of their trip, if a situation has the potential to impact those traveling.

Threat Exposure Dashboard.

Members can also purchase an in-depth risk analysis for their upcoming travels. Our Intel team will identify the potential exposure to risks and threats based on the details provided in the questionnaire. The assessment will include risk mitigating factors to follow during the trip.
